

Community Re-cycling and Up-cycling

PAC
DG

THE RECYCLING SITE has been much tidier since Presteigne's Chamber of Trade took on its management, having recruited a great team of loyal volunteers. It also earns money to put back into the community ... **£2749.22** in the last financial year!

Where should we go with it next?

How can we make the site better and send even less to landfill?

Making it better ...

- Planting around the site?
- Repainting the containers?
- Relocating to Mill Lane depot?
- What else?

**SIGN UP TO
MAKE IT HAPPEN**

Recycle more ...

- Tools
- Small electrical items
- Batteries
- Cooking oil

Re-use or upcycle more ...

- Join the 'Man shed' scheme
- Repair Cafes
- Donate to the furniture barn, the Old Garage
- Swap-Shop events
- School uniform upcycle project
- Community compost scheme
- Promote Freegle
- Bring-and-Take events
- What else?

From the Town Council Facebook page

"Recycling Site: At the June meeting of the Presteigne and Norton Town Council the Mayor James Tennant-Eyles was delighted to inform Councillors that Powys County Council have decided not to close the Presteigne Recycling site for the time being. It will continue to operate run by the Chamber of Trade, with the support of volunteers from the community. It is a much used and popular facility and hopefully will remain open well into the future."
