**Whether you're a landlord or home owner, Powys County Council may be able to provide zero interest loans to make property improvements.** PCC say "We have funding through Welsh Government initiatives as well as our own schemes. The purpose of the schemes is to provide short to medium term loans to help home owners improve the condition of their residential property. Loans of up to £5,000 per unit of accommodation can be considered to fund the cost of works necessary to make your home 'secure, safe and warm', such as replacing a roof. All loans will be zero interest however a small fee will be added to cover administrative costs. It will also be necessary to pass an affordability assessment to ensure that applicants are able to afford the repayments. For more information go to the [www.powys.gov.uk](http://www.powys.gov.uk) website, or to apply please contact the Robert Owen Community Banking Fund (ROCBF) on [01686 626234](tel:01686626234) . However, if you're looking solely for energy efficiency improvements, such as insulation, there may also be grant funding available through other bodies such as [Welsh Government](#) or your energy provider. We recommend you enquire for such grants before applying for any loan, by contacting the [Energy Saving Trust](#) or [Resource Efficient Wales](#)
