...**Drink & food carton recycling - good news - ACE's pingdemic problems are resolved and all three recycling bins have finally been emptied. These bins are so well used which is great - but please flatten your cartons before putting in the bins to maximise capacity - thank you !**

...and further good news - the Community Noticeboard has been saved thanks to David & Pav at the Victoria Fish Bar and the residents of Albert Square. The PACDG noticeboard is currently being re-lined and treated, and will be re-erected sometime this week on the fish & chip shop wall, under cover, just inside the entrance to Albert Square.

TOWN COUNCIL NEWS

Latest planning application in: [21/1453/CAC](#) Grid Reference: E:331637 N: 264197 Proposal: Change of use of shop to residential, partial removal of single storey extension and parking improvements. Site Address: Townsend House, 24 Hereford Street, Presteigne. To be considered at the August meeting of the Town Council.

...**from the Town Clerk - Presteigne Cemetery:** On 18th August at 5.30pm there will be a short dedication ceremony on site for the new Presteigne Cemetery extension and members of the public are welcome to attend. Please note the Council asks that you continue to observe social distancing and will ask for contact details so that you can be contacted in the event of any infection following the event. These details will be destroyed after 21 days. This will be an outdoor event.

COVID

...**Based on the latest guidance from the JCVI, COVID-19 vaccination is now available for children aged 12-15 who are household contacts of people who are immuno-suppressed.** Please complete the self referral form on the NHS website if you are: - aged 16 or over and a household contact of a severely immunosuppressed person OR - the parent/guardian of a child aged 12 to 15 who is a household contact. People who are immunosuppressed have a weaker immune system. They are more likely to have poorer outcomes if they get infected with

COVID-19. Vaccinating household contacts will help limit the spread of the virus. <https://gov.wales/covid-19-vaccinations-household-contacts-immunosuppressed-people>

...PLUS, all 16 and 17-year-olds in the UK are now to be offered a Covid-19 Pfizer vaccine, with the rollout of doses set to begin in the coming weeks. The JCVI has yet to determine the interval between the administration of a first and second jab for 16 and 17-year-olds, with a decision set to be made in due course as more data is collected and reviewed by the body.

...Not sure what sort of COVID test you need? Got Coronavirus symptoms? Self-isolate now and book a test online or call 119. No symptoms? Use a rapid lateral flow test & get results quickly. Find out more about testing in Powys: <https://pthb.nhs.wales/find/ttp>

...Grants for people in Wales on low pay who are told to self-isolate will rise from £500 to £750 from 7th August. The cash is to support those who cannot work from home, as well as parents and carers with children who have tested positive and are self-isolating. Also from 7th August, fully vaccinated adults will no longer be required to self-isolate after close contact with a positive Covid case. People will be told to isolate by the NHS Wales Test Trace Protect (TTP) service if they have tested positive, have symptoms of coronavirus or are a close contact of someone testing positive and have not been fully vaccinated.

...from the Welsh Government. CORONAVIRUS UPDATE. Thanks to your efforts, we can move to Alert Level 0 from 6am Saturday 7 August: - There will be no limit on the number of people you can meet indoors or outdoors, including in private homes, public places or at events - The few remaining businesses who were still required to be closed, including nightclubs, will be able to reopen - You will no longer legally have to wear masks in hospitality settings where food and drink is being served. But we still encourage you to wear them in those settings where this is practical - If you're fully vaccinated or under 18, you'll no longer need to isolate if you've been in close contact with someone who has coronavirus - You'll still need a test on days 2 and 8. And anyone who tests positive must isolate for 10 days - Businesses, workplaces and places open to the public must take reasonable measures to minimise the risk of coronavirus. They will also have more flexibility to tailor their coronavirus measures based on their risk assessment - this may mean less emphasis on physical distancing.

It is everything you have done, and the hard work of our vaccinators, that means we're able to lift restrictions further and see some normality. But the virus is still with us and some important protections will remain in Wales: - You must isolate immediately and get a test if you have coronavirus symptoms - If you test positive you must isolate for 10 days - You will still have to wear a mask in most indoor public places (including public transport, shops and healthcare settings).

Diolch for respecting the restrictions and for saying YES to the vaccine. You have helped to keep Wales safe. More information here <https://gov.wales/wales-moves-alert-level-zero>

SCAM ALERT

...Covid Vaccination Digital Passport Scam. Action Fraud has received over 700 reports from members of the public about fake emails purporting to be from the NHS. The emails claim to be able to provide people with a "digital passport" that "proves you have been vaccinated against COVID-19". These emails are fake, and the links within them lead to genuine-looking websites that steal your personal and financial information. If you receive a call you believe to be fraudulent, hang up. If you are suspicious about an email you have received, you can report it by forwarding the email to: report@phishing.gov.uk. Suspicious text messages can also be reported by forwarding them to the number: 7726 (it's free of charge).

However we will still have the NHS QR codes available if you wish to sign in yourself -We are very excited to be able to serve you at the bar again.
